

revri

skin care reimagined.

powered by nature. fueled by seeds.

what is revri?

REVRI is the all-natural, seed-powered skin care regimen that's built to cleanse, replenish, and moisturize your skin. We've handcrafted each step with essential oils, skin-mimicking moisturizers, and our very own EST-8 molecule for maximum benefit. Your skin has never had an experience like Revri.

how does revri help your body?

purifying cleanser

Gentle, yet powerful. Revri's purifying cleanser naturally whisks away oils while leaving your skin soft, supple, and ready for the rest of your regimen. Cleanse. Hydrate. Prepare.

revitalizing serum

Built to make wrinkles, crows feet, dark spots, and thin areas completely disappear. Our serum utilizes our very own molecule which reaches deep and heals from within. Revitalize. Heal. Glow.

deep moisturizer

Our deep moisturizer was created to mimic your skin's biology, allowing it to sink deep and moisturize from within. Combat aging, dryness, and so much more with daily applications. Moisturize. Regenerate. Nourish.

key ingredients

black cumin stem cell: The Black Cumin Seed is known for its nourishing and antioxidant properties. But, when whittled down to its stem cell, the Black Cumin Seed becomes a powerhouse that's perfect for improving the look and feel of your skin.

charcoal: An all-natural purifier that gently removes impurities from your skin without stripping or reddening. Grease and pollutants are attracted to its molecular structure, then whisked away leaving you fresh and clean.

sunflower seed oil: An all-natural purifier that gently removes impurities from your skin without stripping or reddening.

grape seed oil: The antioxidant profile found in grape seed oil has the ability to protect your skin from everyday pollutants, while nourishing your skin to reduce the aging process. It's all-natural and incredibly powerful.

daisy flower extract: Chosen for both its nourishing properties and ability to fix light and dark spots on the skin. This extract is proven to help the skin glow, while keeping it soft, supple, and touchable.

est-8 molecule: This is our powerful, proprietary molecule. Created with an outer layer which mimics your skin and an inner-layer which slow releases, this molecule is the secret to the success of Revri. Inside lies two stem cells along with essential plant and seed oils and extracts. It's complete and age-defying.

these are some of revri's most distinguished ingredients.
